

BAND-IT®
THE CLAMPING EXPERTS

IDEX
IDEX CORPORATION

INDUSTRIAL INSULATION STRAPPING SYSTEMS

BAND-IT® is the world's leader in quality engineered stainless steel clamping systems and solutions. For over 70 years we have set the industry standard for **Maximum Clamping Performance**.

BAND-FAST™

BAND-FAST™ is ready to use band, pre-cut and pre-assembled with a clip, buckle or wing seal. Pre-assembled product gives you an edge over your competition as it saves up to 30% time and labor costs for your large insulation strapping projects.

BAND-FAST™ is ideal for projects where larger amounts of banding are needed. Bands can be cut to order using your design and custom construction specifications. **BAND-FAST™** is the safer pre-cut option with NO sharp edges. Controlled camber keeps the band flat against the surface.

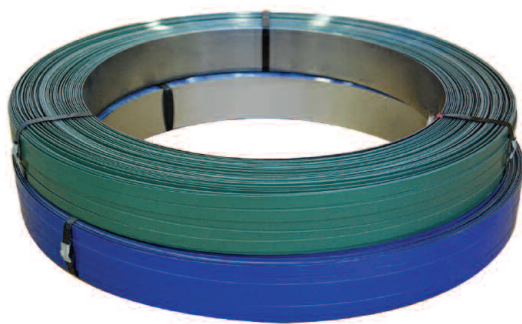

BAND-FAST™ is available in many materials including aluminum, 304 and 316 stainless steel, 200/300 series stainless steel and others upon request. Now also available with **COLOR-IT™**. **COLOR-IT™** coatings are non abrasive and come in a variety of colors and types which provide superior performance, UV resistance, and are manufactured with your specific application in mind.

	Product Numbers	
	1/2" - 12.7mm .020" (.51mm) and .015" (.38mm) thickness	3/4" - 19.1mm .020" (.51mm) and .015" (.38mm) thickness

BAND-IT® offers specialized application tools for the Industrial Insulation market. The Bantam Tool is designed for use in light duty banding applications such as insulation, cable bundling, and sign hanging. For use with both 1/2" and 3/4" banding, the Bantam Tool is a compact, lightweight, ratchet action tool with a built-in cutter. It has been designed for easy loading and removing of material, and is ideal for use in tight areas.
