COMPANY PROFILE

www.itap.it

THE COMPANY

ITAP SpA, founded in Lumezzane (Brescia) in 1972, is currently one of the leading production companies in Italy of **valves, fittings and distribution manifolds** for plumbing and heating systems. Thanks to fully automated production processes, with 72 tooling machines and 51 assembly lines, we are able to produce 200,000 pieces per day. Our innate pursuit for innovation and observance of technical regulations is supported by the company certification ISO 9001: 2008. The company has always considered its focus on quality as the main tool to obtain significant business results: today ITAP SpA is proud to offer products bearing the approval of numerous international certifying bodies.

1972

Founded in Lumezzane, Brescia, Italy

1987

EUROPA® patented in all EU Countries

1995

Certification under ISO 9001 standard

2000

12.000 m² warehouse

2004

Introducing the new range of heating products

2009

8.000 m² warehouse

2011

Replacing the oldest machines, for a total investment of € 8.000.000

2013

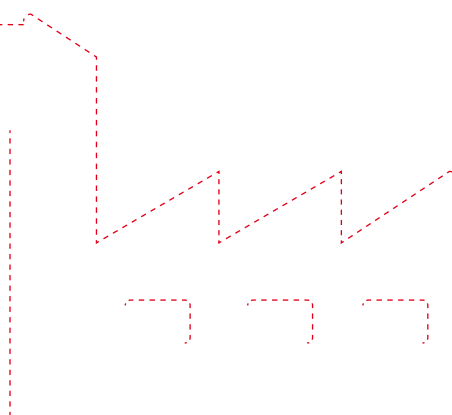

Introducing the new stainless steel manifold for radiant heating

2015

Automatic assembly line for preassembled manifolds

2016

Second production line for stainless steel bars

VISION

DEVELOP INNOVATIVE AND PERFORMING ITEMS
ACT TO SIMPLIFY THE WORLD
OF WATER SUPPLY AND HEATING INSTALLATION

CONTRIBUTE TO THE WELLNESS OF THE FINAL
CONSUMER OFFERING ECO-FRIENDLY ITEMS
COMPLYING TO INTERNATIONAL
RULES AND REGULATIONS

SUPPLY WORLDWIDE CUSTOMERS
AIMING TO GLOBAL ECONOMIC GROWTH

BUILD LONGLASTING RELATIONSHIPS
BASED ON MUTUAL RESPECT
AND AIMING TO BIDIRECTIONAL
GROWTH

TAKE PART TO THE CHALLENGING

And
People

VALUES

CUSTOMER SATISFACTION ACTING AS IF
WE WERE THE CUSTOMERS,
ESTABLISHING INDIVIDUAL RELATIONSHIPS
TO SATISFY ANY SINGLE NEED OR REQUEST

CO-WORKERS TRAINING OUR STAFF
TAKES PART TO CLASSES AND COURSES
TO DEVELOP PERSONAL TALENTS AND
INCREASE TECHNICAL KNOWLEDGE

ACCOUNTABILITY AND INTEGRITY WORKING
WITH EXTREME TRANSPARENCY
RECOGNIZED BY CUSTOMERS
AND CO-WORKERS

ENVIRONMENTAL RESPECT PAYING
ATTENTION DURING THE WHOLE PRODUCTION PROCESS
AND CHOOSING OUR SUPPLIERS WITH SCRUPOLOUS CARE

CORPORATE RESPONSABILITY

KEEP OUR COMPANY IN MOVEMENT,
DEVELOPING INNOVATIVE PROJECTS
BASED ON SUSTAINABLE TECHNOLOGIES AND MATERIALS
TO THE TOTAL RESPECT OF PEOPLE

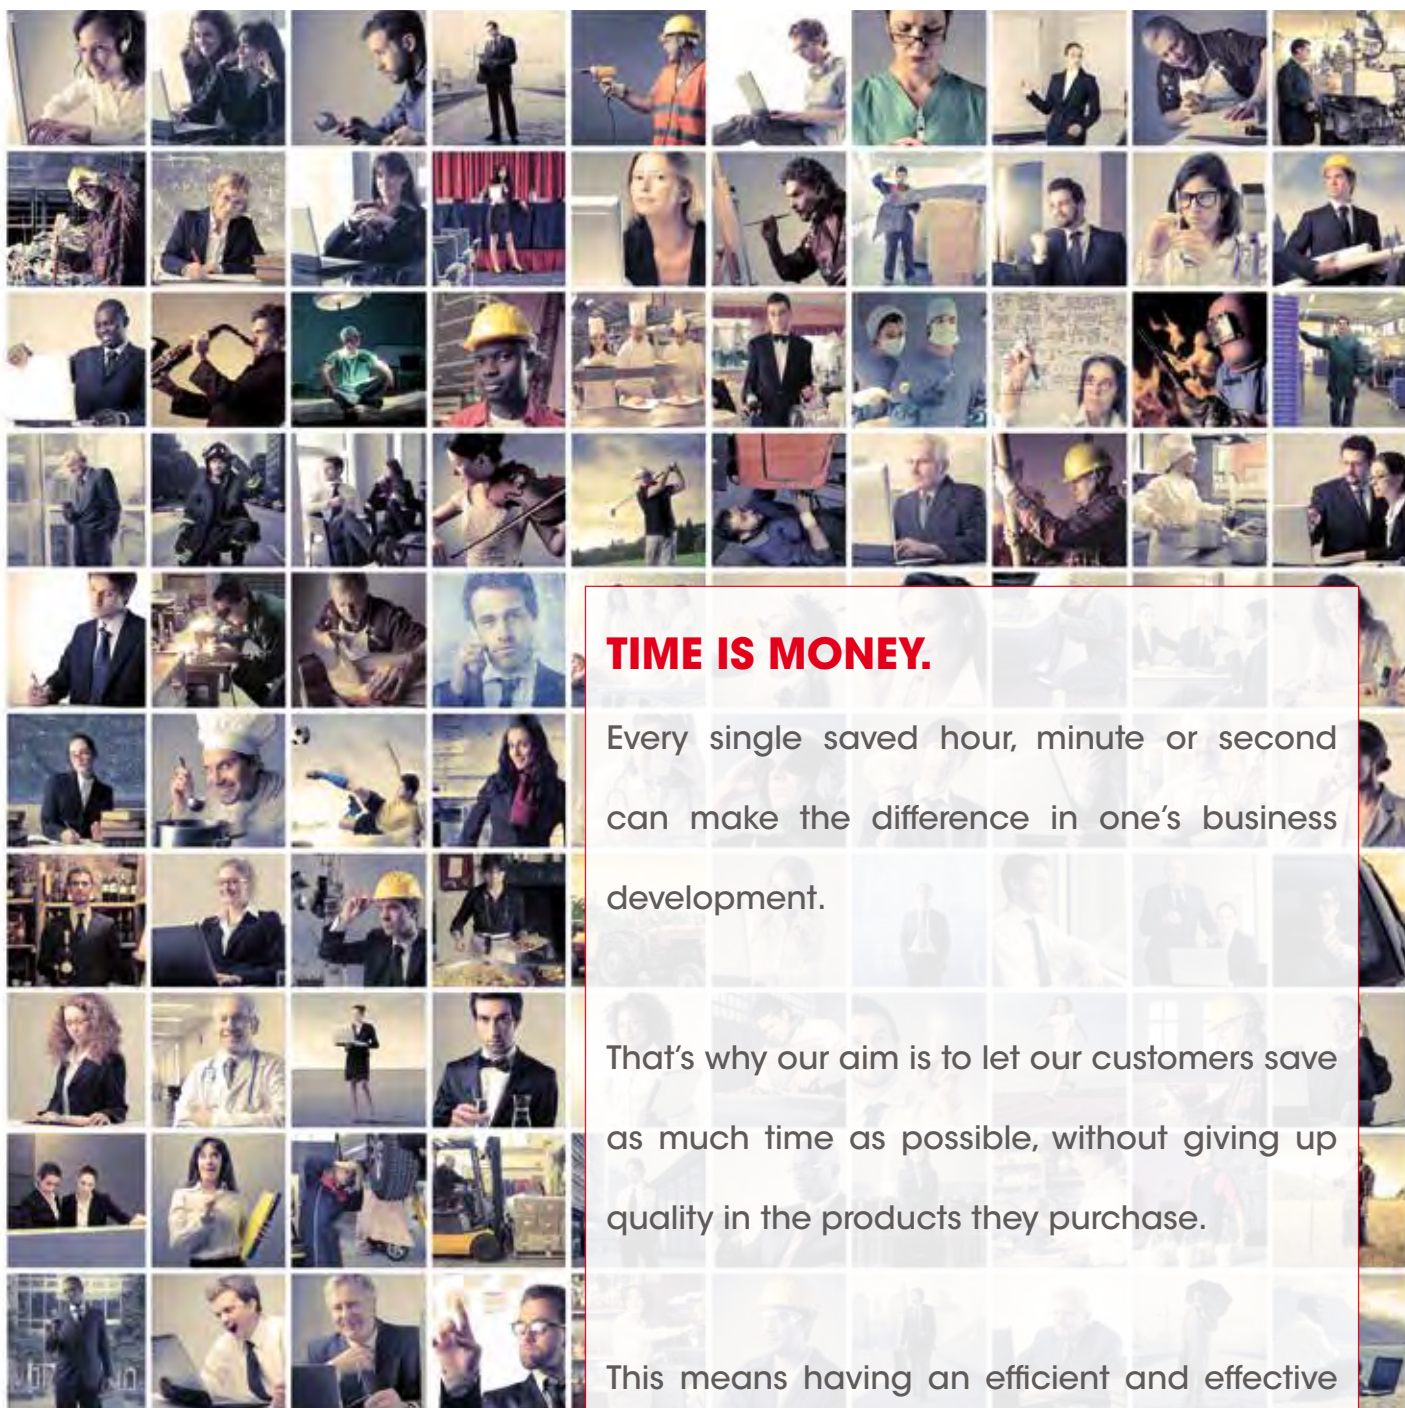

CUSTOMER CARE & STAFF

A BIG FAMILY OF MORE
THAN 100 PEOPLE

Strongly believing that people are the cornerstone of success, our clients and staff are what we mainly care for.

To give our clients the assistance and service they deserve, our sales staff is made up of

TIME IS MONEY.

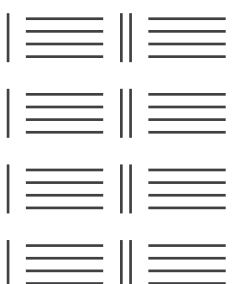

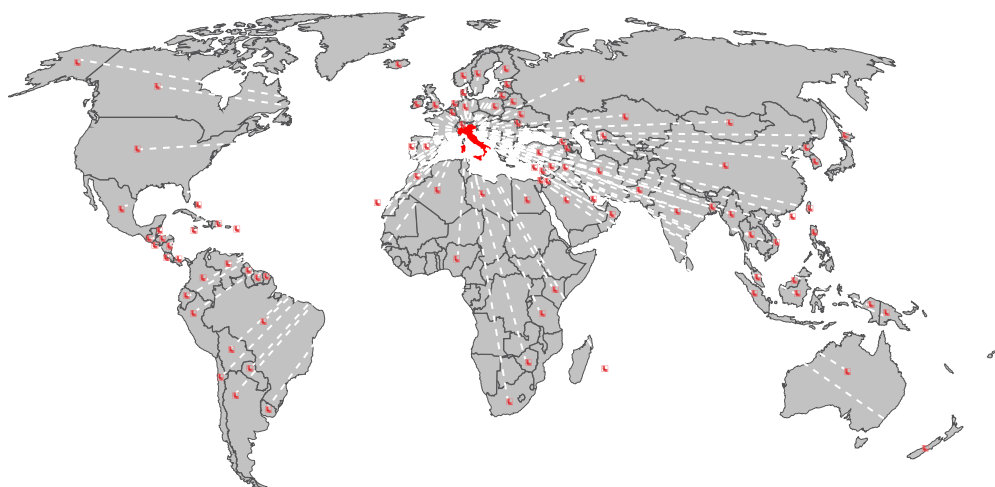

Every single saved hour, minute or second can make the difference in one's business development.

That's why our aim is to let our customers save as much time as possible, without giving up quality in the products they purchase.

This means having an efficient and effective way of working. Our sales staff is ready to answer any question within 24h, orders processing is quick and thanks to a well organized and fully automatized warehouse we are able to guarantee standard delivery within 15/20 days, all around the world.

SALES ALL OVER THE WORLD

EXPORTING TO 108 COUNTRIES

10.000 PALLETS

OF FINISHED GOODS AVAILABLE
IN THE WAREHOUSE:

FAST AND GUARANTEED
DELIVERIES

(200.000pcs SENT EVERY DAY)

RAW MATERIALS, DRAWN BRASS BARS

The raw materials used for manufacturing semi-finished products are brass bars, made from an alloy of copper, zinc and nickel; ITAP acquires its materials from the best Italian drawing mills, located in the province of Brescia and world leaders in the production of brass bars.

FORGING

The initial deformation stage of the raw materials (brass bars) takes place outside ITAP on the premises of the best local companies specialised in hot forging bar sections. Its certified forging mills have decades of experience, which means that ITAP can rely on their high professional standards and extreme flexibility for all its manufacturing requirements.

ACCEPTANCE

Upon their arrival, and before being processed on ITAP's premises, the semi-finished products undergo a quality control run by qualified personnel with optical and digital tools ensuring a high degree of accuracy; once the products have been found to be compliant with technical requirements, the sandblasting process can begin.

SANDBLASTERS

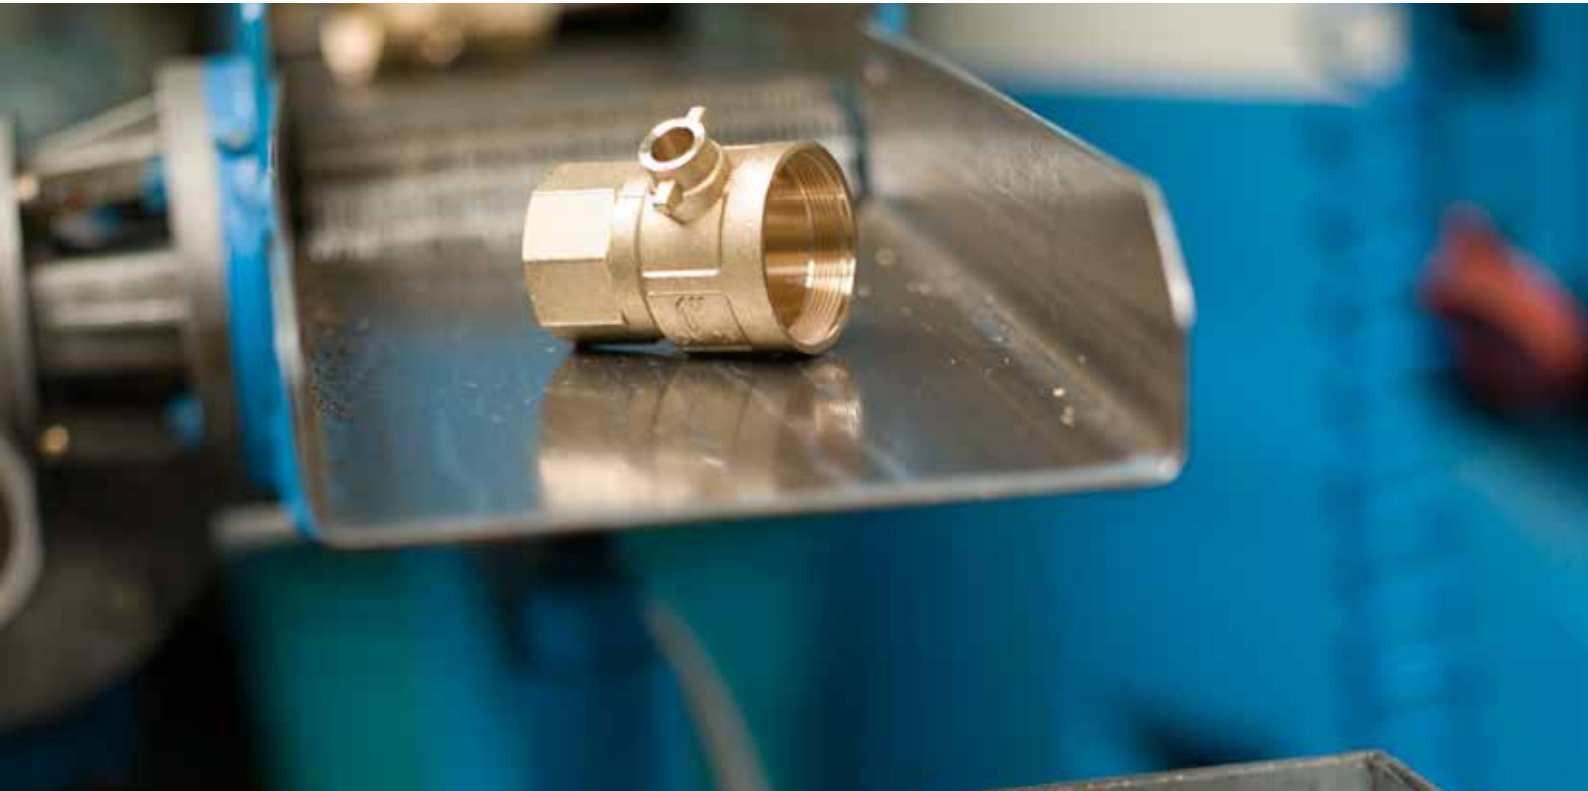

This is essential to clean and get the pieces ready for the subsequent processing stages on machine tools and for surface treatments, such as nickel plating and chrome plating.

TOOL MACHINES "TRANSFER"

45.000.000 pcs/year

Our production facilities boast 72 completely automatic numerically-controlled machine tools, which benefit from regular annual investments for spare parts provisioning and maintenance work; this allows us to achieve a yearly production capacity of 45,000,000 pieces, which can be increased even further.

Tool machines are ITAP's flagship.
It is thanks to their customized technology, high
levels of productivity and precision that we can
achieve such a high production standard.

AUTOMATIC ASSEMBLY LINES

ITAP can count on 51 automatic assembly and testing lines; every day about 200,000 valves are fully assembled, tested and delivered to the storage warehouse and made ready for dispatch.

STAINLESS STEEL MANIFOLDS

MATERIAL USED:
AISI 304L

PRODUCTION CAPACITY
400.000 bars/year

ITAP:

EUROPEAN LEADER
IN THE MANUFACTURE OF
STAINLESS STEEL MANIFOLDS
FOR RADIANT SYSTEMS

THE WAREHOUSE

With a storage capacity of over 10,000 stock pallets, in 2015 ITAP was able to ship 420,000 cartons worldwide; this all took place in compliance with the highest standards using semi-automated warehouse control systems.

More than
10.000
pallets of goods
ready to be
delivered

420.000
cartons sent
during 2015.
