

Snap-tite 71 Series

High Pressure, Push-to-Connect
Non-Spill Quick Couplings

Heavy Duty with Superior Flow and Versatility

Parker's Snap-tite 71 Series couplings are designed for working pressures up to 690 bar. Available in a variety of materials and with a wide range of body sizes.

Air inclusion and fluid loss are minimal with the flush face valves. Large flow chambers in the body and an exclusive valve design permit superior flow while maintaining low pressure drop.

- Flush face/dry break
- Push-to-connect
- Heavy duty construction
- Designed for up to 690 bar working pressures
- Variety of materials
- Wide range of sizes
- Superior flow and low pressure drop
- Sleeve lock design to protect against accidental disconnection
- Available with Autoclave cone and threaded fittings

ENGINEERING YOUR SUCCESS.

Technical and Dimensional Information

Size: 1/4" thru 1-1/4"

Size	A mm	B (Hex) ¹ mm	C (Hex) [*] mm	D (Ø) ¹ mm	E mm	F mm	G mm
1/4"	83,06	20,57	23,88	30,23	49,78	46,74	13,46
3/8"	101,60	25,40	30,23	39,62	59,95	58,93	17,27
1/2"	112,52	38,10	38,10	47,75	70,36	60,45	18,29
3/4"	130,30	44,45	44,45	57,15	77,47	75,18	22,35
1"	142,24	47,75	50,80	66,80	84,33	82,04	24,13
1 1/4"	157,99	50,80	50,80	66,80	93,22	88,90	24,13

¹ Hex dimensions are taken from flat of hex and not across corners. Hex may be substituted with round stock.
Hex column would then indicate dimension taken across wrench flats.
Decimal dimensions are ± 1.5mm.
Part configurations are typical and do not necessarily represent actual appearance.
Note: 1/4" thru 1-1/4" are flush face couplings. 1-1/2" & 2" maintain a recessed face on coupler half.

12 = 3/4" 32 = 2"

End Fitting Type:
F = Female NPTF
EF = Female SAE
RP = Female British Parallel BS2779
Autoclave cone & threaded fittings available (consult QCDE)

Coupling Half:
C = Coupler
N = Nipple

Series:
71 = 1-1/2" & 2" Nipples Only
71-1 = 1-1/2" & 2" Couplers Only
71-3 = 1/4" thru 1-1/4" both

Material:
Blank = Steel, zinc trivalent plating
S = 316 Stainless Steel
SH = High Pressure Stainless Steel

Seals:
Standard Seal = NBR
V = FKM
E = EPDM
M = MHO

Options:
SL = Sleeve Lock

Notes:

- For sizes up to 1" NPTF threads in steel
- For sizes up to 1" NPSF threads in stainless steel
- For sizes over 1" NPT threads
- The current 71-3 couplers and nipples are interchangeable with previous design couplers and nipples in sizes 3/8", 1/2" and 3/4".
- Replacement part kits are available for all styles 1/4" through 2".
- Internal components of S and SH style 71 Series are not all 316 grade stainless steel. Consult QCDE for details.
- Not all configurations are standard product offering. Contact QCDE for price and delivery.
